Quarterly Indicators

Orange County

Q3-2021

The housing market continued at a blistering pace in Q3 2021, with record high sales prices, low inventory, multiple offers, and strong buyer demand being the lay of the land this summer. In navigating the challenges of a seller's market, some buyers chose to step outside their comfort zones, including making offers on homes sight unseen, offering more than the asking price, or waiving financing or inspection contingencies in an attempt to sweeten their pitch and gain a leg up on the competition.

- Single-Family Closed Sales were down 1.0 percent to 1,181.
- Condos Closed Sales were up 29.0 percent to 178.
- Co-ops Closed Sales were up 250.0 percent to 7.
- Single-Family Median Sales Price increased 16.7 percent to \$385,000.
- Condos Median Sales Price increased 13.4 percent to \$239,000.
- Co-ops Median Sales Price increased 79.1 percent to \$120,000.

While some homebuyers chose to persevere through bidding wars, escalation clauses, and line-out-the-door open houses, others decided to put their home searches on hold and rent for the time being, only to find conditions much the same in the rental market. But nationwide, Q3 also saw an improvement in new listings which, along with a small decline in home sales, may signify the market is beginning to moderate and possibly shifting to a more buyer-friendly environment.

Housing Affordability Index

This index measures housing affordability for the region. For example, an index of 120 means the median household income is 120% of what is necessary to qualify for the median-priced home under prevailing interest rates. A higher number means greater affordability.
