### Q3-2021

The housing market continued at a blistering pace in Q3 2021, with record high sales prices, low inventory, multiple offers, and strong buyer demand being the lay of the land this summer. In navigating the challenges of a seller's market, some buyers chose to step outside their comfort zones, including making offers on homes sight unseen, offering more than the asking price, or waiving financing or inspection contingencies in an attempt to sweeten their pitch and gain a leg up on the competition.

- Single-Family Closed Sales were up 4.0 percent to 365.
- Condos Closed Sales were up 24.0 percent to 62.
- Co-ops Closed Sales were down 100.0 percent to .
- Single-Family Median Sales Price increased 13.2 percent to \$466,500.
- Condos Median Sales Price increased 20.7 percent to \$300,000.
- Co-ops Median Sales Price increased 100.0 percent to --.

While some homebuyers chose to persevere through bidding wars, escalation clauses, and line-out-the-door open houses, others decided to put their home searches on hold and rent for the time being, only to find conditions much the same in the rental market. But nationwide, Q3 also saw an improvement in new listings which, along with a small decline in home sales, may signify the market is beginning to moderate and possibly shifting to a more buyer-friendly environment.
